GLOBE DISTRICT MINING NEWS

Officers of the Old Dominion and United Globe Companies Visit Properties

A RUSH OF MINING MEN

Eager to Secure Copper Property in Globe District—Rich Ore Strikes Reported Made in Several Mines—Increasing Activity is Noted

Prof. James Douglas, president of the Phelps-Dodge companies, and First Vice President A. C. James, of New York, were visitors here during the past week, remaining two days to make an inspection of the United Globe Mines property and also the Old Dominion, which is now under Phelps-Dodge management.

President C. S. Smith of the Old Dominion arrived from Boston a day or two later, accompanied by Copley Amory, a stockholder in the company.

The gentlemen are all highly gratified with the progress that has been made by both companies since they were last here, and the splendid outlook for copper mining in Globe district.

Prof. Douglas and Mr. James left Monday night, the former going to El Paso to attend the mining congress, and the latter to his home in New York.

President Smith will remain here a week or ten days longer.

LOCAL MINING NEWS

Contractor Dodd driving a crosscut on the Consolidated Mines and Development company's property, brought in some very good looking sulphide ore which he encountered on Tuesday.

Charles F. Shelby, superintendent of the Old Dominion smelter, returned from a business trip to Douglas last Friday night, accompanying Prof. Douglas and Mr. James. He found the smelter city lively and the Copper Queen and Calumet & Hecla smelters both turning out copper at a great rate. The Copper Queen smelter last month produced over 7,000,000 pounds of copper.

Word was brought in from Pinto creek yesterday that two feet of copper glance had been struck in the shaft on the Cracker Jim claim, owned by the Five Points Copper company. The ore was discovered at a depth of 80 feet, while cleaning out the shaft preparatory to sinking it deeper. The Five Points company has good ore in several places on their property.

F. G. Downey, L. L. Henry and E. F. Eisenhour returned last Friday from a trip to the Eisenhour copper property, incorporated under the name of the Rye Copper company. They also inspected the Roosevelt oil field and a district on Rye creek showing strong indications of oil. Messrs. Downey and Henry were astonished at the magnitude of the copper deposits on the Eisenhour locations, and express the opinion that with adequate development they should make one of the biggest and richest copper mines in the whole southwest. The mineral bearing lode is some 2000 feet wide and shows good carbonate and oxide ores over the entire distance. The main tunnel at a depth of 600 feet from the outcrop is in high grade glance ore. The property is one of undoubted merit.

RAPID SHAFT WORK AT THE ARIZONA-COLORADO

From Supt. Jos. W. Bandhauer we learn that rapid progress is being made sinking the double compartment shaft of the Arizona-Colorado Copper Mining company; three shifts being employed. There were nine 5½ foot sets of timbers put in during the first fifteen days of November. The shaft is now down 400 feet and the formation is improving, showing considerable copper stain. When a depth of 500 feet is attained crosscuts will be run to the north and south.

The Bryan Mines

H. W. Stevens, the well known mining broker, who makes his headquarters at Prescott, accompanied by A. F. White, Jr., a mining expert, visited the Bryan group of claims in the Kelvin district Saturday last. They were shown over the property by J. K. McCarthy, one of the owners of the property. Messrs. Stevens and White represent an eastern syndicate and visited these properties for the purpose of making a careful examination of and

report on same. They were well pleased with the property and have made a favorable report to their principals.—Florence Blade.

ELKS SOCIAL—Globe lodge, No. 489, B. P. O. E., will hold a social session in the lodge room, Odd Fellows' building, tomorrow evening, to which all members of the order and ladies of their families are invited. It promises to be a pleasant occasion.

A GOOD MAN GONE—News has been received of the death of John Pringle, a former resident of Gila county, at his home near Humboldt, Kansas. Informant took place on November 13 under the auspices of the Masonic lodge of Humboldt. Deceased was a man of fine character and the announcement of his death will be received with regret by his old acquaintances here.

R. Allen Lewis, of New York, has returned to the territory, and will appear for trial in the district court at Tucson on November 20 on an indictment in connection with the failure of the International Bank of Nogales. His attorney in the case is J. L. B. Alexander, recently appointed United States Attorney.

Jas. P. Faul returned last week from Los Angeles where he spent several weeks with his wife and daughter. Miss May is an accomplished pianist, having studied for years under the best teachers in Los Angeles.

GLOBE SHINES AT EL PASO

Plays a Leading Part at the Mining Congress at El Paso

Our special advisers tell of the prominent part that Globe is taking at the Mining Congress. The delegation from this camp is one of the strongest from any district in Arizona and they lose no opportunity to present to delegates and visitors the magnitude and richness of the copper deposits of Globe district.

Although the time given to its preparation was short the display of ores from this district is highly creditable. It was secured mainly through the efforts of R. H. Rose, associate editor of the SILVER BELT, who went to El Paso and arranged for its proper display.

To Globe is also due the credit of having the most unique and attractive badge worn by any of the delegates to the congress. It is a copper colored ribbon on which is printed at the top: "Delegate, American Mining Congress, November 14-18, 1905." Following this is pictured a Gila monster beneath which is inscribed: "GILA COUNTY MONSTER COPPER DISTRICT, GLOBE, ARIZONA."

Another striking feature of the Globe exhibit is a map of the United States conspicuously shown, with a large placard reading: "Globe is on the map don't forget it!" This is suspended on a big poster with a copper tack stuck through the circle which indicates the location of Globe on the map.

Judge J. F. Hechtman although prevented by business engagements from attending the mining congress as a delegate, assisted materially in securing for Globe a worthy representation at El Paso. He undertook the collection of funds to defray the expenses attending the shipment and display of ores, providing badges and other necessary expenses in connection therewith. There will probably be a balance remaining to cover the cost of forwarding the ore exhibit to Phoenix for display at the territorial fair next month, and it is desired that the exhibit at Phoenix be enlarged and made permanent.

PERSONAL MENTION

Miss Beatie Lemm from Bisbee is visiting Mrs. John Martin.

Mrs. George Eckert, of San Francisco, is visiting Miss Gunn.

Mrs. J. M. McCollum, Jr., has been visiting her father at Safford for a few days.

The hour for the meeting of the Redmen next Sunday has been changed to 2 o'clock p. m.

Eugene A. Tucker, now a practicing attorney located at Safford, was a visitor to Globe on Monday.

W. O. Tuttle, Indian trader at Rice and owner of the Rice and Fort Apache stage line, spent Sunday in Globe.

Architect W. R. Norton, who is to superintend the construction of the new court house, returned on Sunday from a business trip to Phoenix.

R. E. Mansfield, of Washington, D. C., assistant superintendent of the U. S. railway mail service, was here during the past week on official business.

E. F. Eisenhour who had intended starting east last Monday on mining business was prevented by sickness. He hopes to be able to leave in a day or two.

George H. Francis formerly a resident of Congress, Arizona, and now representing F. W. Braun & Co., wholesale druggists of Los Angeles, was in the city yesterday.

G. D. Barclay, who came down town too soon after a severe spell of sickness and suffered a relapse, is now convalescent and expects to return to business in a day or two.

We are greatly indebted to T. N. Donaldson, who returned from El Paso last night, for information regarding the Mining Congress. Tom says it is a big success and that Globe is strictly in it.

W. A. Childers has been suffering much pain for several days from a blind abscess in the socket of the left eye over the eye ball. He is under the care of a physician and is much improved.

Mr. and Mrs. J. Newton Robinson have returned to their home in Safford after an extended trip through the eastern states. Mrs. Robinson paid a flying visit to her parents in this city last week.

C. J. Barnwell, who has been Western Union telegraph operator here under Manager Allison for the past five months, leaves in the morning for Los Angeles to visit his parents. His place here will be filled by Operator McConnell.

MINING CONGRESS GREAT SUCCESS

A Splendid Gathering of Representatives of a Great Industry

EL PASO'S ROYAL WELCOME

The Most Successful Session of the American Mining Congress ever Held—Bisbee and Globe Prominent in the Convention

Special to Arizona Silver Belt.

El Paso, Texas, Nov. 14.—The weather has graciously smiled on El Paso just in season for the Mining Congress. It rained all last week and the street were in bad condition until today, but the citizens cleared the crossings, fixed sidewalks and put a dress parade front on the town. Everybody had the glad hand extended and the stranger felt at home in an hour.

El Paso is certainly doing all that a community can do to show their appreciation paid by the large attendance of delegates and the western public. It is said by those who have attended many sessions of this convention that El Paso has outshone them in the way she handled the crowd.

The Southwestern will bring in 600 people tonight from Douglas and Bisbee. There are at least 500 more on the way.

Prof. James Douglas addressed the convention today and carried the house by storm when he offered to furnish a free train to Douglas and Bisbee to all delegates who would go. He advocated the establishment of a department of mines as a portion of the department administration at Washington.

Tonight the ladies of El Paso greet the visiting ladies with a grand reception at the Sheldon. The male contingent will be treated to a royal "smoker" at the St. Regis and Grandorff.

On Wednesday the rock drilling contests begin and great interest is manifested on all sides. Records will probably be broken as the finest teams in the United States are on the ground.

Walter Douglas donned a Gila Monster badge and sported it proudly through the day. Globe is the most conspicuous feature of the congress as far as exhibits and the "boost" are concerned. We certainly have the finest and most comprehensive exhibit of ores and the Globe table is busy all the time. The demand for badges has exceeded the supply and there will be none left for the Territorial Fair. To judge by the appearance of people on the street the whole crowd of visitors came from Globe.

The hotels are full tonight for the first time and there is a hustle on for sleeping quarters.

A gratifying feature is the prominence of Mexicans of the highest class who have emulated the American spirit and are making a fine showing.

Everybody wants a SILVER BELT and they'll all get them. Our exhibit is directly in front of the photographic display of all southwestern mines and catch them "coming and going." Sam Gibson, Tony Trojanovich, Doc Collins, John D. Coplen, D. P. Fulier, Charley Taylor and all the others are steering committees of one—each—and bring the people to the Globe counter. Globe will be known in a wider field than ever before and the district should profit greatly by the efforts now being put forth in her behalf.

El Paso, Texas, Nov. 14.—The American Mining Congress began its session here today, with an unusually large attendance. Some thirty states and the territories of Arizona and New Mexico are represented and there are all together upwards of three thousand visitors in the city and every incoming train adds to the number.

The congress was called to order by Mayor Davis who, on behalf of the city of El Paso cordially welcomed the delegates. President J. H. Richards of Boise City, Idaho, responded, speaking in complimentary terms of El Paso and after referring to her wealth of resources said: "I believe that this session of the congress will bring you a richer harvest than you have today." Responses to the address of welcome were made also by the representatives of the various states and from Mexico.

Prof. James Douglas spoke on behalf of Arizona and invited the delegates to visit Douglas and Bisbee in a special train over the El Paso & Southwestern railroad. Later Prof. Douglas addressed the convention on "The Mineral Development of the Southwest."

The feature of the day's session that

aroused most interest was the address of Miss Clara Clark, of Butte, Montana, the only woman member of the American Mining Congress, who earnestly advocated a department of mines at Washington. The sentiment met with unanimous approval, and President Roosevelt and the national congress will be petitioned to grant this deserved recognition of the mining industry.

The annual address of President Richards called forth many expressions of approval.

Tomorrow's session will be largely devoted to the reading of important papers on various subjects pertaining to the mining industry.

A Pleasant Occasion

On Thursday evening, November 9, Miss Dean of the Kinney House, entertained as guest of honor Mrs. Eckert, of San Francisco, who is visiting her friend, Miss Gunn. Those present were: Mr. and Mrs. Hegardt, Mr. and Mrs. Rosecrans, Dr. and Mrs. Kennedy, Mrs. Geo. H. Eckert, Misses Santee, Carroll, Dean, Gunn, Drs. Holt and Sturgeon, Messrs. Steen, Hunt and Snell. A delightful evening was spent in the dining room the guest were entertained by songs and music by the colored orchestra.

MINERS DRILLING CONTEST

Page Brothers, of Bisbee, in the Lead With Good Record

Special to the Arizona Silver Belt.

El Paso Texas, Nov. 16.—Page Brothers, of Bisbee, are in the lead in the drilling contest, they having made 39 13-16 inches. All teams thus far have made better than 39 inches and the contest is waxing hot. Page Brothers are sure of second money and it is highly probable that they will win first.

It is expected that a large party will go to Douglas on Sunday by special train as guest of Prof. Douglas.

Many important amendments to the laws of the American Mining Congress have been made. The next session will be held in Denver.

The Globe crowd will stay to the finish. Over one hundred of us here, all having a royal time. R. H. ROSE.

WORTHY OFFICIALS REAPPOINTED

—George H. Smalley clerk of the district court and of the United States court of the Fifth Judicial district, and W. W. Weed, court reporter, have been reappointed by Judge Nave to their respective positions.

SUSPECTED MURDERER HELD AT CANANEA

Said to Answer the Description of One of the Men who Killed Plunkett and Kennedy

At Cananea recently the local officers captured a Mexican who is said to answer the description of one of the murderers of Plunkett and Kennedy, near Roosevelt in this county. The suspect made a desperate resistance and was wounded, and his face disfigured, by the officers, making his identification more difficult.

The authorities here were notified of the arrest and Sergeant Wm. Sparks of the rangers, went to Cananea and while believing the prisoner might be the right man was unable to identify him.

The man under suspicion is still in custody at Cananea, but so far as known no steps have been taken to extradite him.

SHIPMENT OF MOHAIR—The Gila County Angora Goat company this week made shipment of its fall clip of wool from 9000 goats, amounting to 17,000 pounds. It was shipped to the Massachusetts Plush & Mohair company, Boston. The shearing was a big undertaking as it was all done by hand. A power plant for shearing is to be put in and will be in readiness next March, when the next shearing will take place. The Gila County Angora Goat company has a fine flock of graded goats and fully 500 registered Angoras.

Mrs. Lillie D. Reynolds, wife of Thomas Reynolds, died November 9, after an illness of a week or more. The funeral took place on Saturday the 11th inst., from F. L. Jones undertaking parlors.

NINE PLEAD GUILTY VIOLATION EDMUNDS ACT

In the United States court on Tuesday last week nine of eleven Mormons, residing in Apache and Navajo counties, plead guilty to violation of the Edmunds act.

In confessing their guilt they expect clemency from the court, on the ground that they entered into polygamy before the passage of the Edmunds act and that it would have been inhuman on their part to have discarded those wives in excess of those allowed by law, by whom children had been born.

Of the nine who are to receive sentence, Joseph Elish, who has three wives, is the president of the Mercantile Co-operative company at Holbrook. Jesse Smith owns four wives and is prominent man in that section. David K. Udall is the head of the "stake," or Mormon colony at St. Johns.

The remainder are farmers and are all highly spoken of as exemplary citizens and law abiding in every respect save as to polygamy. They are Joseph W. Smith, Snowflake; Henry T. Tanner, St. Joseph; Silas Smith, Snowflake; J. W. Brown, John P. Rotslinger, Jacob Butler, St. Johns.

Levi M. Savage, of Woodruff, and Andrew W. Gibbons, of St. Johns, were the only ones of the eleven indicted who have decided to fight the case, their trial being set for December 7 under stipulation of the attorneys.

GLOBE ENTERS TAX CONTEST

Local Copper Companies Join the Copper Queen Against Unreasonable Tax

KIBBEY BOARD DEFENDANTS

Old Dominion, United Globe and Arizona Commercial Copper Companies Seek Redress in the Supreme Court—The Hearing Set for November 17

In the fight with the territorial board of equalization to prevent the raises ordered in property assessments, the Copper Queen company has been reinforced by the United Globe Mines, the Old Dominion Copper company and the Arizona Commercial Copper company, all of Globe, says the Phoenix Enterprise.

Supreme Court Clerk Shelby M. Colburn on Monday issued three writs of certiorari for the three companies, each of which calls upon the members of the territorial board of equalization to appear before the supreme court at 10 o'clock on the morning of November 17.

Wesley A. Hill, chairman, T. Frank Wilson, Charles Bowman and Charles F. Solomon, all members of the board of equalization, are commanded to appear on that date, and show cause, if any there be, why the action taken by them on August 17 last should not be declared void and of no force in law.

Attorney William Herring, acting as counsel for the three corporations, appears as the principal in each case and alleges that the equalizers acted without proper authority and contrary to the law which creates them and designates their powers.

Counsel Herring sets for that the equalizers did, on August 17 last, order certain raises to be made in several counties in the territory and that this resulted in an increase in the assessed valuation of the property owned by the three companies over and above the figures at which it had been fixed by the county assessor of Gila county and later by the Gila county board of equalization.

Special stress is laid upon claims that the territorial board had no right to make the raises, and that if acting without proper authority their acts must preface be null and void, all of which he wants them to appear on November 17 and either prove to the contrary or the court will declare their action illegal.

The action of these writs will be to compel the members of the board of equalization to bring their books and records into the supreme court and the matter will be threshed out.

These certiorari cases are to serve the same purpose as the writs of mandamus that will be heard on the same date, only that in the mandamus proceedings one side is seeking to compel the counties to make the raises ordered while in the other, mining companies are seeking to have the action of the equalizers declared illegal.

Colonel Herring is corporation counsel for the Phelps-Dodge company, which owns or controls two of the three companies who made the application for the certiorari writs. The applications for the writs were made Saturday, before Associate Justice John H. Campell in Tucson.

BIG PAY DAY—The November pay in Globe was one of the best on record. It is estimated that local mining companies paid a total of \$160,000.

GOT HIS COMMISSION—U. S. Attorney Nave received his commission yesterday from the office of U. S. Attorney General W. H. Moody. On Friday next Mr. Nave will take the oath of office as associate justice of the supreme court of Arizona before Chief Justice Kent. Judge Nave will succeed E. A. Tucker as presiding judge of the Fifth judicial district, Graham and Gila counties, with federal court and residence at Globe.—Tucson Star.

AFTER FORTY YEARS—Mr. and Mrs. Louis Sessler, former residents of Globe and now living at La Cananea, Sonora, write that they are expecting a visit from Mr. Sessler's sister and her husband, Mr. and Mrs. Sam Keightly, of Cooperburg, Pa. Mr. Sessler and his sister have not seen each other for forty years. He was a child when he left home and now they are both growing gray. Naturally they look forward to the meeting with the greatest pleasure.

HURT BY A FALL—C. E. Fruin, the contractor and builder, yesterday fell from a box on which he was standing and sustained painful injury to his left hand and wrist. Some of the small bones in the hand are believed to be broken.

FINE NEW HOME—Postmaster G. M. Allison is having a handsome eight room residence with modern conveniences erected on the northeast corner of Sutherland and Oak streets. Contractor Andrews promises to have the house completed by December 1.

GONE TO GRAND LODGE—Grand Matron of the Eastern Star Mrs. Sarah E. Martin, and Worthy Matron of White Mountain Chapter No. 8, Mrs. C. M. Cushman left last week for Flagstaff, Arizona, to attend the grand lodge session of the Masonic bodies, now in session there.

Successful Entertainment
"The Trip Around the World" given by the Baptist Ladies Aid Society last Saturday proved a grand success. Between five hundred and six hundred

people visited the seven nations represented in different parts of the town where they were royally entertained by the ladies. The entertainment given in Miner's Union hall in the evening was not such a success owing to the breaking of the piano.

The ladies wish to thank Globe Miner's Union for the use of their hall, Messrs. Middleton & Shute for their donation, as well as all others who assisted and the public in general for its liberal patronage.

Mrs. A. C. Sieboth, accompanied by her daughter, Miss Alice, arrived from Globe Wednesday and are guests of the Florence hotel. The ladies will remain in Florence for a few days when they will proceed to Superior, where they expect to remain for some time in the hope that the climate there will benefit Miss Sieboth's health.—Florence Blade.

The Bremen Piano Recital

The piano recital given by Miss Ida Ashurst Bremen drew a fairly large and appreciative audience to the Opera House last Monday night. Miss Bremen repeated her former success, her rendering of the several numbers on the program being artistic and effective. She was assisted by Miss Pearl Lady in recitations, F. L. Wightman, baritone soloist and Wm. Benbow, basso soloist, all of whom acquitted themselves well. The piano furnished for the occasion was a fine toned Emerson.

A CHINESE FUNERAL

Queer Rites Over the Remains of a Wealthy Celestial

Chu Quong, a prominent member of the Chinese colony of Globe and one of the proprietors of the Tie Sang restaurant, died last Friday evening after a protracted illness. Deceased was possessed of considerable wealth, being rated at \$25,000, and the rites performed were in keeping with his position. The body was embalmed by F. L. Jones and after being robed in the finest of Chinese rainment, was enclosed in a handsome plush casket. An elaborate service was performed at the conclusion of the rites at the deceased's room, on Push street, the casket was placed in the hearse and driven to the cemetery, followed by a wagon loaded with the choicest cooked chicken, pork, rice, etc., which were left within the burying ground and the hearse, bearing the corpse, was driven back to town and thence to the railroad depot followed by mourners in carriages and buggies. The remains were shipped to Hong Kong.

A Birthday Party

Miss Laura Knoepfel entertained a large number of her friends at her home Tuesday evening, the occasion being her fifteenth birthday. Numerous sports were indulged in. At 10:30 lunch was served, soon after which the happy guests departed wishing Miss Laura many happy returns of the day and leaving her many presents in remembrance.

DEPUTY MARSHAL INSANE—Deputy Marshal R. H. Daniels who left here November 5 for the Indian Territory having in custody K. McKaskill wanted there for robbery, lost his reason and was brought back to El Paso, where his uncle Ben Daniels, U. S. Marshal for Arizona, took charge of him. A physician who examined young Daniels stated that his condition was not serious and that he would probably recover.

GONE TO BANKERS' CONVENTION—Cashier of the Gila Bank & Trust Company, A. G. Smith, who has been giving his attention to the company's business here for the past several weeks, left Tuesday morning for Prescott to attend the convention of the Arizona Bankers' Association, of which he is president. Mrs. Smith, who was here with her husband, returned to Clifton.

CARNIVAL COMING—David L. Herman, contracting agent for the Nat Reiss Southern Carnival company, was in town yesterday, making arrangements for the appearance of his company here for six days commencing Monday, December 11. Globe will be the central show point for all the surrounding country including the Gila valley and reduced rates will be made by the G. V. G. & N. Ry. Co.

ARIZONA'S FIRST FAIR—B. A. Packard, fair commissioner, says that the coming territorial fair will eclipse anything of its kind in the southwest, that they have the speediest track in the country and some of the fleetest horses to test its quality. Mr. Packard thinks the fair will surpass the most sanguine expectations of the most ardent sportsmen and will redound greatly to the benefit of Arizona.

A RESIDENT OF GLOBE COWARDLY ASSAULTED

T. D. Morris was assaulted and seriously injured at Fort Thomas last Saturday by C. D. Stevens keeper of a store and restaurant at that place. The two men had some words over a nephew of Mr. Morris' wife and Mr. Morris slapped Stevens in the face. Morris was about to leave the store and was standing with his back to Stevens when, as alleged, Stevens struck Morris a heavy blow on the back of the head with a potato masher and hit him again after he had fallen, rendering him unconscious. Some of the friends of Morris threatened to lynch Stevens who sought the protection of an officer of the law. Mr. Morris was able to return to Globe on Saturday's train. For several days he was under the care of a physician, but is now much improved.

GRINDLE SEARCH FRUITLESS—Capt. Rynning of the rangers, who headed a party that went to Tiburon Island in search of the Grindell party has returned. The Grindell party's trail was located and followed for some distance. Dead horses and burros were found along the trail, but no trace of the missing men. Grindell's brother and several others are still prosecuting the search.
